1.1 Basis of Preparation

The Financial Statements of Sri Lanka Institute of Taxation comprise the Balance Sheet, Income and Expenditure account and Accounting Policies and Notes to the Financial Statements. These financial statements are prepared in accordance with the Sri Lanka Accounting Standards laid down by the Institute of Chartered Accountants of Sri Lanka. The financial statements referred to are based on the historical cost convention.

02. Valuation of Assets and Their Bases of Measurement

2.1 Property, Plant and Equipment

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. All items of property, plant and equipment are initially recorded at cost.

(a) Depreciation

Provision for depreciation is calculated by using the straight line method on the cost or valuation of all property, plant and equipment in order to write off such amounts over the estimated useful economic lives of such assets. The estimated useful lives of assets are as follows:-

Office Equipment	05

Obligations payable at the demand of the suppliers or within one year of the balance sheet date are treated as current liabilities in the balance sheet. Liabilities payable after one year from the balance sheet date are treated as non-current liabilities in the balance sheet.

A provision is recognized in the balance sheet when the Institute has a legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefits for which a reliable estimate could be made is required to settle the obligation.
