3. Financial and Operating review

3.1 Financial Review

Financial Result

According to the financial statement presented the working of the year ended 31 December 2008 had resulted in a deficit of Rs. 10,441,719 after taking into account the Government Grant of Rs. 108,870,000 received for recurrent expenditure as against the surplus of Rs. 4,066,641 for the preceding year after taking into account the Government Grant of Rs. 91,300,000 received for recurrent expenditure for the year, thus indicating an deterioration of Rs. 14,508,360 in the financial result.

Approved Recurrent Budget Allocation was Rs. 122,000,000 for the year 2009. The Treasury released only Rs. 108,870,000 for the period. That is the major reason for the deficit of Rs. 10,441,719 for the period. The deficit amount was accumulated due to non receipt of total allocation every year.

3.2 Budgetary Control

Significant variances were observed between the revised budget and the actual thus indicating that the budget had not been made use of as an effective instrument of management control

As we have exercised effective control over expenditure, it has resulted in favorable variation. We monitored outsourced services and contractual expenditure effectively. However it is difficult to forecast accurate income and expenditure due to development stage of the University.

3.3 Cost per Student

<i>Year</i>	<i>Average per student</i>
2006	1,572,965
2007	923,020
2008	439,321
2009	339,284

Capital expenditure is comparatively high at the initial stage of the establishment of any University. It is not reasonable to evaluate cost per student using capital expenditure. However action is being taken to reduce the cost per student gradually.

3.4 Uneconomic Transaction

The University entered in to a agreement with a private Company to develop a Computer systems to use for General Administration of the University in 2006. The company had not furnished sufficient systems which had been paid Rs. 736,000 and the University had sustained a loss of Rs. 736,000 an action had not been taken to recover the money from the company.

The University Council has taken a decision to terminate this contract after settlement of advance.

3.5 Human Resource Management

According to the approved carder of the University, 36 Vacancies in the Academic staff & 70 Vacancies in Non-academic staff had not been filled.

Academic Vacancies

Academic vacancies were advertised and we are in the process of filling the academic vacancies by end of October 2010.

Non Academic Vacancies

We have already filled the vacancies of Two Technical Officers, store keeper and shroff. At present the clerical duties are performed by Operations Assistants on assignment basis. Action has already been initiated to fill the positions according to the approved cadre on permanent capacity.

3.6 Audit and management Committee

Although two audit and management committee meetings had been held in the year under review, no action had taken on the decisions taken regarding observations made in the audit reports.

Four audit committee meetings were held during the year under review and necessary action had been taken according to decisions of the committee.
