If a candidate fails to produce identification documents at the Examination Hall, his candidature is liable to be cancelled. In case a candidate forgets to bring such documents into the Examination Hall, it should be brought to the notice of the Supervisor and arrangements should be made to produce them before the Examination concludes.

(iv) Standard stationery (i.e. writing paper, graph paper, ledger paper, precis paper) will be supplied. If you receive any stationery that is different from the kind generally distributed or distributed to the others it should be promptly brought to the notice of the supervisor. No paper other than those issued at the Examination Hall should be used for answering questions. Excess paper and other material should be left on the desk, in good condition. When log tables are supplied they should be used with care and left on the desk when you leave.

(v) Candidates should bring their own pens, pencils, bottles of ink, erasers, pieces of cloth, rulers, geometrical instruments, coloured pencils, coloured chalk, etc.

(vi) When you start answering you should promptly write down your Index Number and the name of the Examination on each sheet of paper used. Write neatly and legibly on both sides of the paper. Leave a blank line after the answer to each part of a question. After the answer to a full question leave one or several blank lines. Do not crowd in your work.

(vii) The left-hand margin of the answer sheet is set apart for you to enter the number of the question you answer. The right hand margin is reserved for the examiner's use and nothing should be written there. Number your answers correctly as incorrect numbering leads to confusion.

(viii) You should read carefully the instructions given at the head of the question paper, with regard to the compulsory questions and the manner in which the other questions should be selected. Disregard to these instructions is often liable to affect you adversely.

(ix) When Mathematics Questions are answered, give all details of calculations and any roughwork, in their serial order as part of the working of the problem. Necessary sketches, diagrams and figures should be accurate and sufficiently large. In an answer running into several pages if reference must be made to a diagram drawn in an earlier page, that diagram should be drawn repeatedly.

(x) At the end of each paper, arrange your answer sheets in the order you answered the questions. Then using the piece of twine supplied, tie them up at the top left hand corner. Do not tie up at the top right hand corner.

(xi) You should personally handover your answer script to the Supervisor or to an Invigilator. Or else remain in your seat till it is collected. Failure to do so may result in the loss of your script and your being treated as an absentee for the paper. On no account should your script be handed over to a peon or an attendant.

(xii) If it becomes necessary for you to speak to the Supervisor or an Invigilator, or if you need stationery, remain in your seat and raise your hand.
